

Here is how Number TAB numbers correspond with NAF TAB pentatonic minor scale:

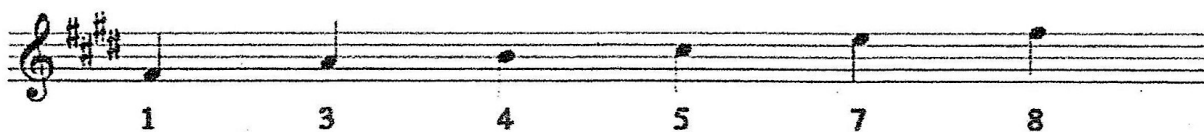

Figure 3

Many of the songs in this collection use notes outside of the basic NAF scale. Below is a chart showing all the Number TAB numbers for all notes on the NAF, and how they are fingered (Fig. 4). Notes that have two fingerings, the one to the right is an alternate. Check the tuning of all alternates before using them. Flutes differ in how they play notes above the octave (8). The fingerings shown above the octave are suggestions. Your flutes may vary.
